Information shared at this program is derived from Gov't, (Federal & State/SERC) Mandates, Institutional and Professional Associations' Recommended Standards, Industrial, Commercial, Transportation, Chemical and Equipment User Specialists as well as Veteran "Street-Smart" Haz Mat Emergency Response Specialists.

What people are saying about this presentation...

Thank you for a practical, no-nonsense, straight talk Command "Learning Experience"...Keep bringing programs like this to us!...It has challenged me to become a leader, not just a manager!...The unique case studies are worthwhile especially viewed on the large screen video format...It has really helped me to improve involving Command decision making processes...This program has given me incentives to continue to improve my response capabilities...I hope everyone can attend this event...This emergency preparedness opportunity has instilled in me the ways and means to succeed in scene management even at task level involvement...The protocols/check lists were worth the cost.
